We ensure our products improve hygiene, reduce cost-in-use and the need for ongoing maintenance, – all while minimising our environmental impact.

innovation, sustainability and hygiene

All Tork® products and services are created with a clear focus on innovation, sustainability and hygiene. Our comprehensive range includes washroom, wipers, cloths and tabletop products enhanced by innovative, stylish dispensing systems. We ensure our products improve hygiene, reduce cost-in-use and the need for ongoing maintenance – all while minimising our environmental impact.

With Tork Elevation, we've perfected the balance between form and function. This innovative, washroom dispenser range has won not one, but two prestigious, international design awards. And our Tork Performance wiper and cloth dispenser range follows on from this inspiration.

On the following pages we have outlined some of our most recent and significant environmental achievements, including FSC® chain of custody certification and a substantial reduction in our Kawerau plant's CO₂ emissions.

Who we are

The popular Tork brand was created by global hygiene company SCA. For nearly half a century, we have been creating innovative washroom hygiene systems and industrial wipers for the Away from Home market. Our local division, SCA Hygiene Australasia utilises this global strength and knowledge to produce many products in Australia and New Zealand.

How our solutions can improve the everyday

Wherever there is a need for wiping, drying, cleaning or polishing, we have an innovative Tork solution to suit. A solution that improves hygiene, makes cleaning more efficient, and saves time and money.

You'll find Tork solutions in all sorts of businesses – from commercial offices to industrial factories, schools to hospitals and food manufacturers to restaurants and cafés.

When you purchase a Tork solution, we not only guarantee best in class products and dispensing systems, you'll also benefit from our good advice, support and value added services. We can provide all the information you need to match the right Tork solution to your business. And with unparalleled customer service, you can be sure we'll be there when you need us.

forever sustainable

Business today requires thinking about tomorrow. This means taking measures to conserve natural resources, creating processes that minimise our impact on the environment and choosing renewable resources wherever possible. From lowering our water usage to reducing our reliance on fossil fuels and minimising landfill waste, every initiative is about sustainability – not just for now but forever.

We at SCA are pioneers when it comes to sustainability and we're continually focusing on reducing our carbon footprint. For more than a decade, we have proven our commitment to the environment by implementing safer processes, energy and resource efficient production, and responsible forest management and fibre sourcing. We have been keeping stringent records and publishing our environmental achievements since 1998 and set our first sustainability goals back in 2001, six years before Australia ratified the Kyoto Protocol.

How we are planning for a better future

SCA environmental goals[†]

- 100%** control of fresh fibre raw materials. Locally we have raised the bar to 100% certified virgin fibre by 2012
- 20%** reduction of CO₂ emissions – an ambitious target to reduce emissions from fossil fuels by 2020
- 15%** water use reduction has been set globally and 30% reduction in organic content in waste water

We are proud of our own sustainability efforts, and worldwide recognition is testament to our achievements.

- In 2010 SCA was ranked in the global top 100 most sustainable companies by Corporate Knights business magazine for the sixth consecutive year
- In 2010, SCA was named one of the world's most ethical companies by the Ethisphere Institute, USA for the third year running
- EIRIS and The Independent newspaper in 2007 ranked SCA as the most environmentally friendly paper company and the second greenest company globally
- SCA has been listed on the FTSE4Good global sustainability index since 2001

This worldwide recognition confirms our goals are being met, but it is important that we meet your sustainability goals too.

The mark of responsible forestry

Tork now gives you even more sustainable options

We are proud to announce that Tork has achieved another environmental accreditation, which means we can now offer you an even wider range of environmentally responsible products.

The FSC (Forest Stewardship Council®) certification awarded to our manufacturing sites in New Zealand guarantees that Tork products bearing the FSC label are a responsible choice for your business. No product can carry the FSC label unless it has met the most stringent environmental forestry standards. Tork is the first in Australia and New Zealand to offer a comprehensive range of FSC certified washroom products.

39%*

CO₂ emissions reduction at our Kawerau plant

Looking after tomorrow

Sustainability is the cornerstone of everything we do and our environmental achievements continue to grow. During 2010 we reduced our Kawerau plant's CO₂ emissions by up to 39%*. At our Box Hill site we've reduced water usage by a remarkable 50% and waste going to landfill also by 50%. We are dedicated to reducing the impact of each of our products and services to ensure we meet or exceed your green procurement needs.

In addition to our Tork FSC accredited range and our recycled range, we also offer products carrying these reputable ecolabels:

Tork in the washroom

Size, décor, number of visitors – every washroom is different, but one thing remains constant – the need for hygiene. Creating a more hygienic washroom is easy with a Tork solution.

We take everyday washroom products to a new level with our innovative range of Tork Elevation dispensers. Easy to use and maintain and available in a range of sizes and capacities, we can help you choose the right dispenser for your washroom and reduce the risk of unhygienic run-out.

The right Tork dispenser paired with a quality Tork refill creates your ideal washroom solution.

Tork wipers and cloths

Think of a wiping, cleaning, polishing or drying task and there is a Tork solution to tackle it. Selected for their superior performance, you'll find a Tork wiper and cloth taking on tasks as diverse as the heavy duty requirements of the mining industry to the delicate needs of automotive finishing. There are products to assist with HACCP compliance in the foodservice industry, the hygiene requirements in healthcare facilities and a range to help reduce OHS risks in manufacturing environments.

Combined with our new range of innovative Tork Performance dispensers, you can ensure improved performance that your customers and staff will appreciate. This range will deliver wherever you are, whatever the task.

Tork in healthcare

Hygiene and healthcare go hand in hand, and where there's a need for hygiene, there's Tork.

We offer a specific range of products for healthcare facilities that are cost effective, hygienic and disposable.

And throughout the healthcare industry, Tork solutions are also chosen to improve hygiene in washrooms, kitchens, food preparation areas and wash stations.

Tork Xpressnap reduces napkin usage by 25%

If you're tired of customers taking too many napkins then you'll be pleased to know we have a solution, Tork Xpressnap. This clever dispensing system offers your customers one napkin at a time to significantly decrease wastage.

We guarantee that over a 30-day period, you'll enjoy at least a 25%* reduction in napkin usage or we'll give you up to \$250 back.

Tork Xpressnap Stand N4

Tork Xpressnap dispensing system
Perfectly suited for a variety of foodservice environments from casual dining to high-traffic, the Tork Xpressnap dispensing system offers hygienic one-at-a-time napkin dispensing in a range of models.

Tork Xpressnap Tabletop N4

Tork Xpressnap dispensing options
Our Stand Model dispenser holds the dispenser upright with stability. It's portable so you can move it to the perfect position and clean it easily. Our Tabletop Model has a smaller footprint so it's ideal for use at individual tables. And our Counter Model is available for foodservice environments where you're after the look of a traditional napkin dispenser.

Tork Xpressnap Counter N4

Boost sales with AD-a-Glance
Put your message right in front of your customers with AD-a-Glance®, our unique display advertising feature available on all dispensers. AD-a-Glance provides a creative space for promoting specials, competitions or just adding to your brand image. You can even cross sell other products, services or menu items or generate advertising revenue.

Tork Xpressnap Café N10

NEW

Tork Xpressnap Café
A smaller version of our successful Tork Xpressnap tabletop dispenser, Tork Xpressnap Café is perfect for tables and counters where space is limited. Designed for establishments such as cafés, bakeries and ice-cream outlets, Tork Xpressnap Café offers hygienic one-at-a-time napkin dispensing, reducing wastage and cost.
